CAPT Jeffrey Miller
Chief, Joint Training Division
Operational Plans and Joint Force Development (J-7)
Joint Staff

10 February 2005

Next Generation JTIMS Update

- **Future of a Joint automated training information management system will be integrated with DRRS**
- **Currently exploring stronger linkage between JTIMS and DRRS to provide better integration between OSD DRRS PM and Joint Staff JTIMS PM**

- Draft POA&M for next generation submitted for review

- Capabilities Development Document complete

- Development team working on a future JTIMS system architecture that's compatible with the gig, collaborative environment (i.e., IWS) and DRRS with linkage to other user required systems (i.e., JOPES, JESS, a training objective tool, etc.)

- Initial prototype targeted for release NLT 01 AUG 2005
